

FOAMplus® Pre-Molding

Storopack's Pre-Molded Foam-in-Place Packaging Services make custom product protection and packaging easier than ever. Our North American Design Center engineers the molds using state of the art CAD & CAM technologies to provide ready-to-use custom packaging materials to your door, conveniently & cost effectively. Quality Pre-Molded Foam-in-Place packaging can be produced on-site using Storopacks Customized Molding Platforms, allowing you to fabricate on-demand at your convenience.

- Saves labor and lowers your production cost
- Saves on equipment cost and maintenance
- Our convenient facility locations make delivery fast, and economical
- Variety of films including anti-static
- Storopack FOAMplus® Universal Foam offers better compression strength and lighter weight to lower your outbound freight costs.
- Multiple pre-Molding platforms for on-site fabrication
- Enhanced customer perception with professional & consistent, pre-molded foam-in-place packaging
